Re:Vision Effects

Re:Flex, FieldsKit, Shape/Shade, Smooth Kit, Video Gogh: Does not offer render- free licenses. Custom quotes made for render-only licensing based on number of render stations.

Twixtor Pro: has render-only licenses for \$119 each.

Reelsmart Motion Blur Pro: has render-only licenses for \$29.99 each.

Trapcode

In order to use Shine/3D Stroke/Starglow/Lux/Particular on the machines in a render farm the plug-ins need to be registered.

Since the normal user interface does not exist on render engine installs, below is a link to a stand alone application that will allow registration of the plug-ins.

Install the plug-in the normal way on the machines in the render farm, then run this program on each machine and enter your name and key.

Do not forget to press "**Register**".

Mac: <http://trapcode.com/download/TrapcodeRegisterApp3.sit>

Win: <http://trapcode.com/download/TrapcodeRegisterApp3.zip>

Ultimate

Advantage: offers render-only versions for \$495

Walker Effects

Basic, Designer, and Professional Editions: free install on all render-only computers

Zaxwerks

3D Invigorator Pro: free install on all render-only computers

3D Invigorator Classic: does not work across a network
